Profile

With a background in Business and Logistics Management, I began my career in logistics before transitioning into software development and studying full-time to pursue a more dynamic and challenging path. I am excited and eager to learn and grow in this industry, while continually expanding my skills and capabilities.

Work Experience

2021 - 2023 | Operations Assistant - Lillimex

- Managed export processes for agricultural commodities.
- Coordinated logistics with suppliers and shipping lines.
- Ensured compliance with international trade regulations.

2020 - 2021 | Logistics Coordinator - RTT

- Facilitated deliveries for Checkers 60/60, ensuring timely service.
- Monitored order levels and driver performance.
- Resolved logistics and delivery related issues.
